NT1055

VALIDATOR-NT - NETWERKTESTER

Algemene kenmerken

- Conducts BER testing to speed certify Ethernet data transmission speed up to 1000Base-T (1 Gbps)
- Measures SNR and skew to uncover impairments to electrical Ethernet data transmission
- Tests for opens, shorts, split pairs, miswires, and reversals and measures distance to opens and shorts—supports all copper network, telco, and coax cables
- Performs PoE load test to ensure maximum power is available from PoE source
- Performs port discovery to detect advertised Ethernet speed and displays capabilities of network devices
- Pings network devices to verify connectivity to active equipment
- Includes Plan-Um® software to create network layout; document cable tests; show network topology; and record moves, adds, and changes

Toebehoren

- 1 x afstandsmodule
- 1 set 1-8 afstandsadapters voor bedradingsplan (RJ11/RJ45) (TP612)
- 2 x lithium-ion herlaadbare batterijen (NT93)
- 2 x universele AC-adapters/laders

- 1 x verbindingskabel 1.83m USB klant naar PC (serie A plug naar serie B plug)
- 2 x 19cm kabel RJ12/RJ12 voor feilloze verbinding met RJ11 of RJ45- connectors
- 2 x 30.48cm patchkabel met RJ45-connectors
- 2 x 60.96cm snoeren met RJ45 en 8 krokodillenklemmen
- 2 x tussenkabel voor modulaire plug RJ45
- 1 x F/F-adapter
- USB-drive inclusief Plan-Um® bedradings- en planningsoftware, handleiding en ValidatorPRO-firmware
- Draagtas
- 100 kabelcertificatielabels
- 12V sigarettenaansteker
